

Md Ahsan Ahmed Samdany

Full-Stack Developer & Unity / AR-VR Specialist

a.ahsan18ahmed@gmail.com +61 429 223 251 Truganina, VIC, Australia

linkedin.com/in/mdahsanahmedsamdany github.com/sam666-deb

sam666-deb.github.io/Personal-Portfolio

Full-stack developer and Unity/AR-VR specialist completing a Master of Information Technology and Systems at the University of Tasmania. Ships production web and mobile apps end to end (React, React Native, Node.js) and spent two years developing and teaching Unity/AR-VR applications. Interested in HCI, immersive systems, and research collaboration.

EXPERIENCE

Independent Full-Stack Developer — Self-directed projects 2025 – Present

Remote / Australia

- Designed and shipped **CommuteCast**, a full-stack PWA combining live PTV transit data with weather, using a signed Node/Express API layer to securely proxy third-party transit data
- Built **Zulibo**, a real-time chat application with WebSocket messaging and Stream Video calling, using React Native (Expo), MongoDB, and Clerk authentication
- Delivered a cross-platform task management app with real-time sync via Convex
- Own the full deployment pipeline for all projects (Vercel, GitHub Actions CI/CD)

Unity Developer Trainer & Project Manager — Daffodil International University, AR/VR & Game Development Lab 2023 – 2024

Bangladesh

- Trained multiple cohorts of beginner students in Unity development and game design fundamentals
- Led development of Unity-based AR/VR applications across a student development team
- Managed timelines and technical direction for concurrent AR/VR project initiatives

Vice President — Daffodil International University, AR/VR & Game Development Lab 2023 – 2024

Bangladesh

- Organized technical seminars and workshops, and oversaw day-to-day lab operations and resourcing
- Coordinated with faculty and industry partners on lab initiatives and events

Teacher Prefect — Daffodil International University 2022 – 2023

Bangladesh

- Assisted professors in delivering lectures and supporting student learning across multiple courses
- Provided supplementary tutoring, improving comprehension for students who were falling behind

SELECTED PROJECTS

CommuteCast [commute-cast-six.vercel.app](#) [github.com/sam666-deb/CommuteCast](#)

Full-stack commute companion combining live PTV transit data with weather, deployed as an installable PWA with light/dark mode.

React · Vite · Node.js · Express · PWA

Zulibo [github.com/sam666-deb/Zulibo](#)

Real-time, Instagram-DM-style mobile chat app with messaging, stories, and voice & video calling.

React Native · Expo · TypeScript · MongoDB · Clerk · Stream Video

TODO App [github.com/sam666-deb/To-Do-App](#)

Cross-platform task management app with real-time sync, gradient UI, and dark mode.

React Native · Expo · TypeScript · Convex

EDUCATION

Master of Information Technology and Systems — University of Tasmania 2025 – Present
Australia

B.Sc. in Computer Science and Engineering — Daffodil International University 2020 – 2024
Bangladesh — Graduated with distinction

CERTIFICATIONS

2023	Unity Developer Certification — Unity Technologies
2023	Project Management Fundamentals — Daffodil International University
2022	Python Programming Certification — Python Institute

TECHNICAL SKILLS

LANGUAGES	JavaScript / TypeScript · Python · C# · C++ · Dart
WEB & MOBILE	React · React Native (Expo) · Node.js / Express · MongoDB · Convex · Tailwind CSS
UNITY / AR-VR	Unity 3D · AR/VR Development · Game Physics · OpenCV / Computer Vision
TOOLS	Git / GitHub · GitHub Actions (CI/CD) · Vite

RESEARCH INTERESTS

- AR/VR for Education
- Human-Computer Interaction
- Real-Time Systems
- Applied ML / Computer Vision
- Cross-Platform Engineering
